Corrigendum to SORPTION PROPERTIES OF PERIODATE OXIDIZED COTTON

[*Chem. Ind. Chem. Eng. Q.* 17(3) (2011) 367–374]

The authors regret that a citation of Per A. Larsson, Magnus Gimåker, Lars Wågberg, The influence of periodate oxidation on the moisture sorptivity and dimensional stability of paper, *Cellulose* 15 (2008) 837-847, and the corresponding copyright permission to reproduce were inadvertently omitted from the caption of Figure 4. The caption of the figure should have read:

Figure 4. Schematic representation of a possible mechanism for the cross-linking reaction. (Adapted with permission from *Cellulose* 15 (2008) 837-847. Copyright 2012 Springer.)

The authors sincerely regret any inconvenience that this omission may have caused.

One of the conditions of submission of a paper for publication in the *Chem. Ind. Chem. Eng. Q.* are that authors confirm that their work is entirely originally written, someone else's data and/or text are appropriately cited or quoted and permission has been obtained for use of copyrighted material from other sources. Therefore, the above article represents an improperly usage of the scientific publishing system. Apologies are offered to readers of the *Chem. Ind. Chem. Eng. Q.* that this abuse was not detected during the submission process.
